

Argotec™ EU50/A16

General Description

EU50/A16 is a colorless polyurethane film (EU50) coated with a high tack acrylic adhesive (A16). It is supplied with a single-sided, release coated paper liner.

Key Features

- Waterproof
- Breathable
- Bacterial barrier
- Conformable
- High tack skin contact adhesive

Key Features

- Manufactured in bulk rolls up to 1300mm by 1000m (coated width 1280 nominal)
- Rolls can be slit to customer's requirements

Property	Test Method	Typical Value
Film weight	GK01	55 gm ⁻²
Film thickness	GK10	50 microns
Adhesive weight	GK57	26 gm ⁻²
Liner stripping load/release	GK56	5 gf/cm ⁻¹
Adhesion to stainless steel	GK55	480 gf/cm ⁻¹
Moisture vapour transmission rate, MVTR (24 hours @ 37°)	GK54	440 lm
